Dear Contractors,

This letter is to inform you that the Mifflin County Planning and Development Department is hosting a 32-hour Lead Supervisor Initial training course taught by Pennoni. This course will be held at the **Mifflin County Historic Courthouse, 1 West Market Street, Lewistown, PA from 8:00 a.m. to 5:00 p.m. from Monday October 19, 2026-Thursday October 22, 2026 with a one-hour break for lunch.**

This course will be funded by a Whole-Home Repairs grant from the Commonwealth of Pennsylvania, Department of Community and Economic Development from ARPA funds and offered **at no cost** to interested contractors in Mifflin County. Classroom space is limited, so those interested will need to reserve space in advance.

Upon completion of this course, interested contractors may have the opportunity to participate in Mifflin County's Housing Rehabilitation Program. Approximately 520 homes in Mifflin County have been rehabilitated since this program's inception in 1984. This program is designed to help homeowners of low- and moderate-income address necessary repairs that affect health, safety, and energy efficiency. Some homes in this program require lead abatement activities, and only contractors and companies licensed in lead abatement can complete this type of work.

This course, accredited through the PA Department of Labor and Industry, provides information on lead-based paint activities and abatement procedures. Upon successful completion of this course, participants will receive a certificate and information needed to start the licensing process with the PA Department of Labor and Industry.
