

MIFFLIN COUNTY, PA

THE PLAN

This project will develop a Safety Action Plan (SAP) that identifies safety concerns, analyzes crash data, and recommends strategies to reduce serious injuries and fatalities on Mifflin County roadways.

COMMUNITY PARTNERS

Mifflin County, in partnership with local municipalities and community stakeholders, is leading this initiative to improve roadway safety for everyone who lives, works, and travels in the area.

SAFE ROADS FOR ALL

Traffic crashes have serious impacts on individuals, families, and communities. The SAP helps the County take a proactive, data-driven approach to improving safety and securing future funding for safety improvements.

GET INVOLVED

Tell us about safety concerns using the public input map or attend an upcoming event to share your input. For more information on how to participate visit mifflincountypa.gov or scan the QR code.

PROJECT SCHEDULE

SEPT/OCT 2026

- Vision Zero Goal Statement
- Analysis of Survey Results
- Community Demographics Summary
- Public Open House
- Interactive Public Input Map

NOV/DEC 2026

- Existing Conditions Summary
- Draft High Injury Network and Systematic Findings

JAN/FEB 2027
